

RECOMMENDED RESOURCES **from NATIONAL INSTITUTE FOR LITERACY**

GED on TV

Internet: www.ket.org/education/ged
Phone: 1(800) 538-4433 (for Kentucky residents)

This program of Kentucky Educational Television is for adults who would like to study for their GED at home. Many states broadcast the GED Series. Check with your local public television station.

California Distance Learning Project

Internet: www.otan.dni.us/cdlp/

This project focuses on using communication through computers as a vehicle for student and teacher interaction.

Diploma-At-A-Distance

Internet: www.jhgroves.org/daad
Phone: 1(888) 321-GRAD

This Delaware distance learning program offers the opportunity to complete course work leading to a high school diploma.

The Adult Literacy Media Alliance (ALMA)

Internet: www.edc.org/ALMA/
Phone: (212) 807-4237

This national television and video-based multimedia adult literacy service has designed a multimedia literacy project for adults including a series of literacy videos, accompanying print materials, and a website for adults at the pre-GED level who are in need of reading, writing, and mathematics skills.

California 5 Percent Projects

Internet: www.otan.dni.us/cdlp/cdlp2/5percentintro.html

Adult education programs in California may use up to 5% of their block entitlement for nontraditional instructional methods with new technologies. The 5 Percent Projects link is an alphabetic listing of all projects that have been state approved during this school year.

Mindquest

Internet: www.mindquest.org
Phone: (612) 729-6044

Part of the Bloomington, Minnesota public schools, this is an online program designed for adults who want to complete a high school diploma.

Crossroads Café

Internet: www.otan.dni.us/cdlp/cc/home.html

This video and print curriculum series is designed for ESL learners who are literate in their own language, but whose English skills range from beginning through intermediate levels.

Intelecom

Internet: www.intelecom.org
Phone: (626) 796-7300

Intelecom produces telecourses and works with a wide range of education and research institutions, broadcast organizations, and publishers.

US Department of Education Star Schools

Internet: www.ed.gov/prog_info/Star/Schools

This is one of the largest networks of public and private sector partners (schools, school districts, state departments of education, telecommunications entities, universities, regional service centers, etc.) helping to build the capacity of the education community to make effective use of the information superhighway.

PBS Literacy Link

Internet: www.pbs.org/adultlearning/literacy

This online collection of learning activities and resources for adult learners is one of three adult education distance learning projects funded by the Star Schools Program.

National Institute of Literacy Technology Online Discussion

Internet:

www.nifl.gov/lincs/discussions/nifltechnology/technology_literacy.html

This electronic listserv provides a forum for online discussion about technology and literacy. Archives make previous discussions also available.

US Department of Education Community Technology Centers

Internet: www.ed.gov/offices/OVAE/CTC

The Centers promote the development of model programs that demonstrate the educational effectiveness of technology in urban and rural areas and economically distressed communities
